

SATURDAY SPRING SEMINARS

June 5 – Tropical Color ... Tropicals provide an abundance of striking color through the hot months of the year. We will share the secrets of keeping your tropicals healthy and blooming.

June 12 – All About Cacti and Succulents ... Our very own Jeff will guide you through the prickly business of growing succulents. He will address all of the thorny issues regarding this fascinating and diverse group of plants.

Seminars begin at 9:45 am (the coffee will be ready by 9:00). Parking can be challenging during seminars so please follow our signs to optional parking areas.

*This concludes our spring seminar season. We hope you will plan to attend our fall series beginning in October.
Watch our website for schedules.*
